CARRIED

E. PUBLIC MEETING

None

F. DELEGATIONS

None

G. REPORTS

- | | |
|------------------|--------------------------------|
| 1. Received from | Todd Boyce |
| Addressed to | Parks and Recreation Committee |
| Date | November 4, 2024 |
| Topic | Outdoor Movie Idea |

SUMMARY

A request was received to host a movie in the park using the river as an opportunity to have the community watch the movie from boats, kayaks, paddleboards, etc. 2025 will be the 50th anniversary of Jaws and this could be a unique twist on a summer classic.

COMMENT

The logistics including safety would still need to be assessed however, staff feel this could be something different for our community to offer.

Moved by John Andrews

Seconded by Anisa Vangjeli

THAT staff investigate the suggestion of a movie in the park on water and report back.

CARRIED

- | | |
|------------------|---|
| 2. Received from | Joanne Henderson, Manager of Recreation and Culture |
| Addressed to | Parks and Recreation Committee |
| Date | November 4, 2024 |
| Topic | Park Upgrades |

SUMMARY

The development of the parks at Coleman Central and Miller's Crossing subdivisions proceeded well over the summer months. Due to the construction of new Lepine apartments on the south side of Coleman Avenue, it has been decided that the bosque area of the Coleman Central Park will be deferred until the Apartments are completed

and the tie in of the park with the Lepine lands can be completed. This will likely happen in late 2025 or early 2026.

COMMENT

Both of these parks will be a great asset to the neighbourhoods. The number of trees that are included in these developments should also be recognized.

Moved by Todd Boyce

Seconded by Laura Scott

THAT the information report by the Manager of Recreation and Culture on the development of the Coleman Central and Miller's Crossing subdivision parks be received.

CARRIED

H. ADJOURNMENT

Moved by Todd Boyce

Seconded by Harry Sidhu

THAT the meeting be adjourned at 8:00 p.m.
