 - c) No vendors satisfied the conditions for participation; or
 - d) The submitted bids were collusive.
2. The goods, services or construction can only be supplied by a particular vendor and no reasonable alternative or substitute goods or services exist for any of the following reasons included but not limited to:
 - a) The protection of patents, copyrights, or exclusive rights; and
 - b) To ensure compatibility with existing goods, or to maintain specialized goods that must be maintained by the manufacturer of those goods or its representative.
3. Additional deliveries are required for a project by the original vendor of goods, services or construction that were not included in the initial Call Document, and a change of vendor for such additional goods or services cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement and would cause significant inconvenience or substantial duplication of works or costs for the Town.
4. For any reasons of urgency brought about by events unforeseeable by the Town or during an emergency, the goods or services could not be obtained in time using an open or invitational competitive procurement process.
5. If the Town procures a prototype or a first good or service that is developed in the course of, and for, a particular contract for research, experiment, study, or original development.
6. For purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, bankruptcy, or other government organizations, but not for routine purchases from regular suppliers.
7. If a contract is awarded to a winner of a design contest provided that the contest has been organized in a manner that is consistent with the principles of this policy in particular relating to the publication of a Call Document notice and the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

8. If goods or consulting services regarding matters of a confidential or privileged nature are to be purchased and the disclosure of those matters through an open Competitive Procurement Process could reasonably be expected to compromise government confidentiality, result in the waiver of privilege, cause economic disruption, or otherwise be contrary to the public interest.
9. To bridge or use as an extension to an existing contract to deliver goods, services or construction beyond the contract original end date in cases where a new procurement for the same deliverables is underway and additional time is needed to complete the procurement process and award a new contract.
10. For professional services less than \$75,000 per project.

SCHEDULE “D” – TRADE TREATIES
